Chapter 6: Conclusion

To starts enhance your enterprise webmail services, isn't crucial to start the synchronization functionality over a single mail. Besides, Google Inc. does provide the steps to synchronize one's mail box under IMAP profile though, it has been removed due to data deprecation. On the contrary, still the solutions are on avail. PCVITA Express Migrator for Google Apps (IMAP Server) enables multiple migrations of webmail services to Google Apps flawlessly. Starting Express Migrator for Google Apps software needs no extra technical knowledge. Though, the software is intuitive and flexible to guide from novice to professional without any hassles. It is recommended, you must consult our experts for any assistance over 24/7 online chat. For any queries or doubt you can reach us at support@pcvita.com.
